We strive to be the place where individuals find knowledge and support they need to make decisions that will positively impact their future.

The Pregnancy Resource Centers are state-of-the-art, limited medical facilities focused on giving individuals the knowledge they need to make the most informed choices about their health. The PRC's provide valuable resources to individuals faced with unplanned pregnancies, the possibility of pregnancy or other private health concerns. We answer the tough questions and strive to empower people to make their health a priority.

**PRC**

Pregnancy assistance that's fast,  
no-cost and confidential.

**PREGNANCY RESOURCE  
CENTERS**

Reducing teen pregnancy is closely connected to the goal of promoting responsible fatherhood - National campaign to reduce teen pregnancy.

# WE BELIEVE

We believe in you. We believe you are a strong and capable person who can make informed decisions about your sexual health and pregnancy.

The Pregnancy Resource Centers provide pregnancy assistance to individuals like you that are in a pregnancy situation or may not have insurance. We give valuable resources to individuals faced with unplanned pregnancies or the possibility of pregnancy in the form of counseling, pregnancy tests, ultrasounds, STD testing, doctor referrals and referrals to other community resources. Fatherhood services include life skills classes, support groups, and one on one mentoring.

We are here to educate and discuss the facts and risks of abortion and the alternatives like adoption and parenting. We are called to help everyone that comes through our door with some of the most important decisions they have ever faced.

In no way are we called to enforce or to be the decision makers for you. But we will always encourage you to make the healthiest and most informed decision for your life and the life of your unborn child.

Should you make the decision to parent, we have programs in place for mothers and fathers to help with the process and to walk you through the pregnancy and initial parenting process, step-by-step.

Our counselors will also talk to individuals who have experienced the past traumas such as sexual abuse or abortion. We have confidential services that can assist you with addressing the hurts you may have experienced. These services are designed to help men and women be set free from traumatic experiences.

Whatever you decide; we will provide a helping hand, give you a friend to talk to and the resources you need. We're here to answer the really tough questions and to empower you to make the most informed decisions possible. We are someone you can always trust, so let us be your trusted source of information about sexual health and pregnancy.

# WHAT ABOUT YOU

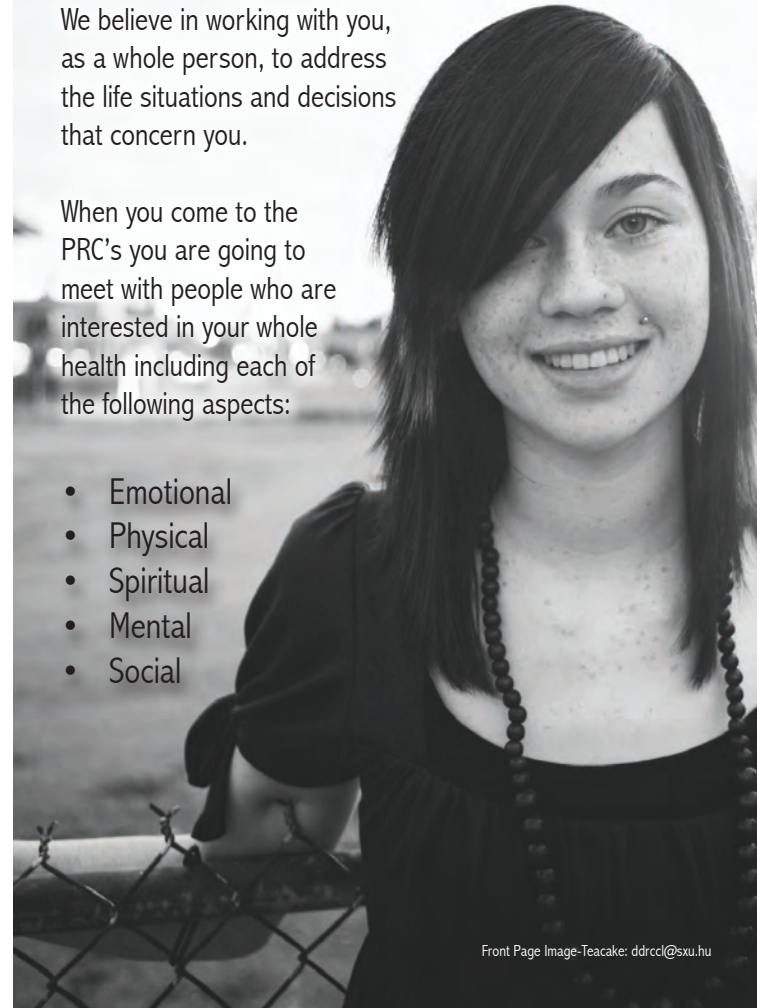

When you walk through our doors, we want you to know that your total well-being is our first priority.

We believe in working with you, as a whole person, to address the life situations and decisions that concern you.

When you come to the PRC's you are going to meet with people who are interested in your whole health including each of the following aspects:

- Emotional
- Physical
- Spiritual
- Mental
- Social

## WHAT WE VALUE

Our values are the driving forces behind our centers. These are the fundamental values that the PRC's operate by:

- Honesty and truth
- Integrity
- Compassion and love
- Confidentiality
- Service
- The whole person
- Total well-being
- Your time
- Promoting Fatherhood
