# Food Drive Toolkit

## ORGANIZE YOUR FOOD DRIVE IN 6 EASY STEPS!

### Plan the Logistics

Before anything else, please contact our Director of Operations, Sharon Taylor, for everything you'll need to know about your drive! Then, choose your start and end dates and collection method.

### Set a Goal

Challenge your team with a realistic and fun goal.

Example: Collect 200 lbs of food (1 can = 1 lb)!

### Promote Your Drive

Make it eye-catching! Use flyers, decorate collection bins, and spread the word through social media, emails, and announcements.

### Make It FUN!

Host competitions between teams, departments, or classes.

Offer prizes (pizza party, casual dress day, etc.) to top donors.

Add a theme (Soup-er Bowl, Holiday Giving, etc.).

### Share Your Progress

Keep everyone engaged with updates, leaderboards, and fun announcements!

### Celebrate & Give Thanks

After your drive, share your results! Give shout-outs to top donors and send thank-you notes.
